Good Run of Cattle---Market Steady.

The hog market yesterday was weak to the stuff offered, the large receipts of the day before, and the general unsettled con-dition of markets everywhere were the causes for the decline. The quality was only fair, and nothing extra, about the same as the day before. Some scattering the consignments being accumulations of wagon londs and one or two car lots holdings for the filling of orders. wagon loads and one or two car lots that came in late showed a sprinkling of fair to good stock, but on the whole, the average was lowered by the common and mixed stuff. It was all readily bought that was offered, and none held over. Dold bought all that could be used for Immediate slaughter, and could have used more. Woods also was a heavy buyer to make up a shipment for orders held. Earl Beckham of Burrton was also a moderate buyer to fill out a shipment. There were no special features of the day's trading, than that the business was brisk while it lasted. The run was good, though a slight falling off from the unusually There were IS cars came in as compared with Is the day before. Following is a parison of the several dates:

At Near the Top When the Stock Market Closes.

SPANISH FOURS ADVANCE

London Revives a Hankering for Americans.

New York, March 20.-Realizing sales were absorbed today without at any time reducing the level of prices to last night's close, or even near it, and the market several times rallied to near the top figures of the day under renewed buying The day closed with such a buying move-The Union Stock Yards has about 68 ment in full force and with prices near the highest level. The day's net gains in and in the specialties gains of over 5 points in Sugar and nearly 7 points in Metropolitan Street Railway were scored. Some of the shorts put out in Monday's bulge were covered and perhaps helped on the advance materially, but the leading influence in the market was a rampant succulative buying movement. London was credited with being a large buyer here, bur foreign exchange falled to reflect the fact, the tone of exchange being firm. This might be due to slightly easier time money, which was no less significant of the prevailing confidence in peaceful outcome than the strength in stocks. Prices of Americans in London had rise before the opening here, but cabled re-ports said that this was due to buying on New York orders. Spanish government bonds also showed strength in Paris and London, but this was called a reflection of the strength of American securities rather than the cause of it. Early reports from Washington that Spain had agreed to free Cuba for \$200,000,000 indemnity. gave the first powerful upward impetus to the markel. The abstention of the sen-ate foreign relations committee from reporting any of the war-like resolutions in its custody and the refusal of the house to interrupt the progress of the presi-dent's negotiations with the Spanish goving these actions that the president's demands upon Spain were sufficiently firm and far-reaching to meet the objections of these who had threatened to oppose him in congress. The underlying conviction in financial circles was that whatever hese demands may be Spain would accede to them and thus avert hostilities. The total sales of stocks today were 561,000 shares.

The bond market was by no means as active as stocks, but the tone was strong and some notable gains in prices were scored. Total sales were \$2,425,900. United States new fours, coupon, ad-

vanced 1% per cent, and the registered 1 per cent bid. There were sales of the new fours coupon at 1 per cent over yesterday's prices and of the old fours, coupon, at 1/2 per cent over yesterday's bid

Women are the real heroes of the world. What burdens they do carry! How they

do suffer from the ills peculiar to woman-

hood! They endure this dragging torture

weeks, months, years. The story of weak-ness and suffering is written in the drawn features, in the sallow skin, in the listless eyes, in

the lines of care and worry on the face. But there

is a remedy that will cure nearly every case of

this kind of trouble. McElree's Wine of Cardui

is a vegetable wine that is made for women. It

exerts a wonderful healing, strengthening and

soothing influence upon the organs of woman-

hood. It invigorates and stimulates the whole

system: It is almost infallible in curing the pecu-

liar weaknesses, irregularities and painful de-

rangements of women. Year after year, in the
